

From CEO's Desk

We are innovative and financially sound and because there are so many opportunities to grow within the organization. Many of the positions in management or in specialist areas are filled internally. Here you feel like part of a family and not so much an employee who has to perform his or her duties.

Mr. Sanjay Kodag
CEO Of Eurolec Energy

Perfect Synergies

Principal Group

We are authorised partner for

Wago

Hager

RR Kabel

OBO

Panasonic

Socomec

Bals

Menekess

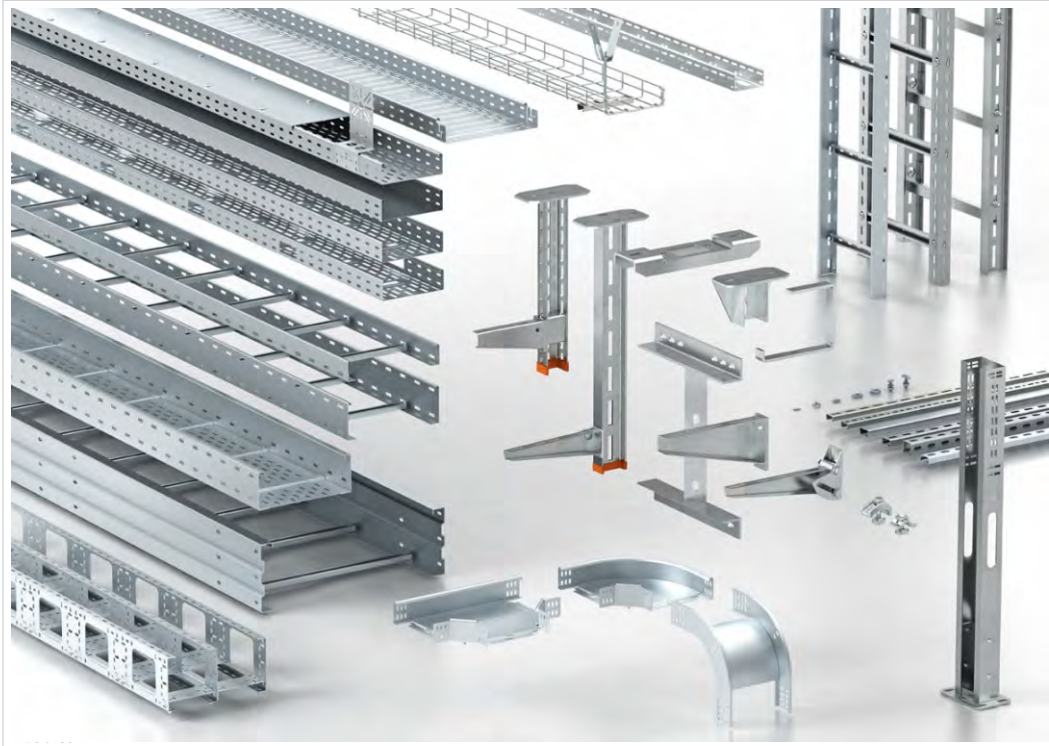

Neptune

MK Honeywell

Cable Tray and Support System

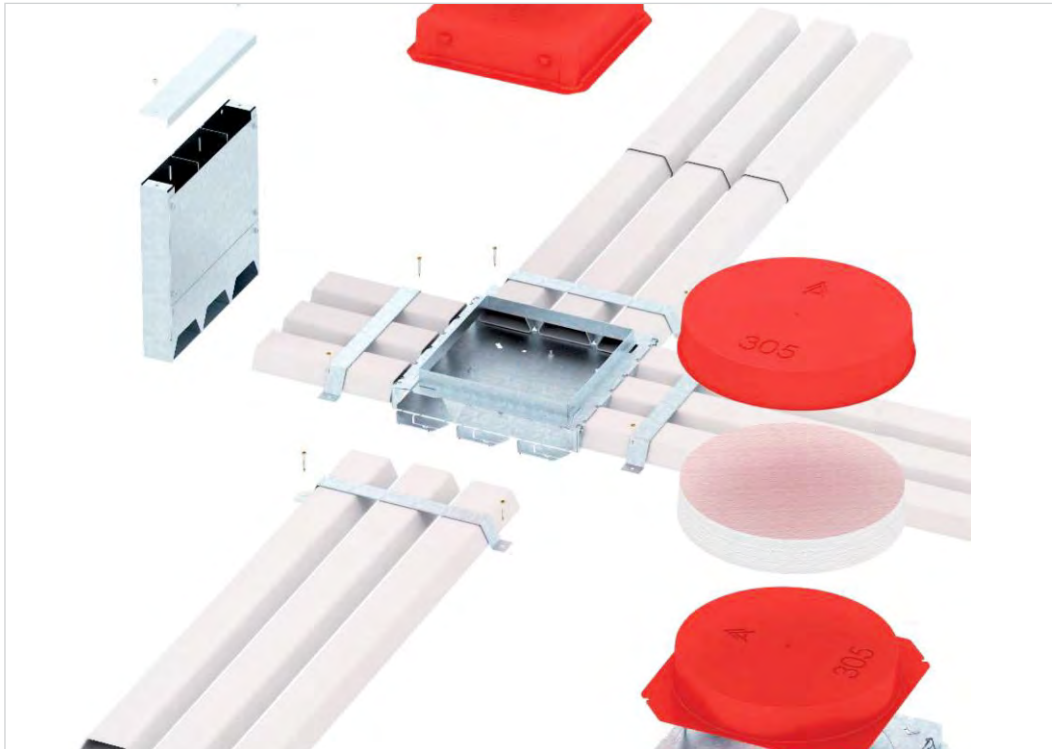

Perforated cable tray systems
Unperforated cable tray systems
Mesh cable tray systems
Cable ladder systems
Wide span systems
Vertical ladder system
Luminaire support systems
Mounting systems
Fastening systems
Marine systems
Modular Systems
Cable tray systems

Transient and Lightning Protection System

Air -termination and down-conductor system
OBO isCon system and insulated lightning protection
Equipotential bonding systems
Interception & arrestor systems
Measuring & testing systems
Earthing systems
Surge protection energy technology, arrestor, type 1
Surge protection energy technology, arrestor, type 1+2
Surge protection energy technology, arrestor, type 2
Surge protection device for photovoltaics
Surge protection, data and information technology

Underfloor System

- EUK screed-covered duct system
- OKA open trunking system, screed-flush
- OKA brush bar trunking system
- System 55 for thin screed layers
- IBK in-concrete duct system
- AIK on-floor trunking system and Telitank
- GES service outlets
- Cassettes - height-adjustment and decouplable
- Heavy-duty systems
- UDHOME floor sockets
- GES R2 floor sockets
- Standard-installation solutions for under floor systems
- Pluggable installation solutions for under floor systems
- UFS fire protection systems

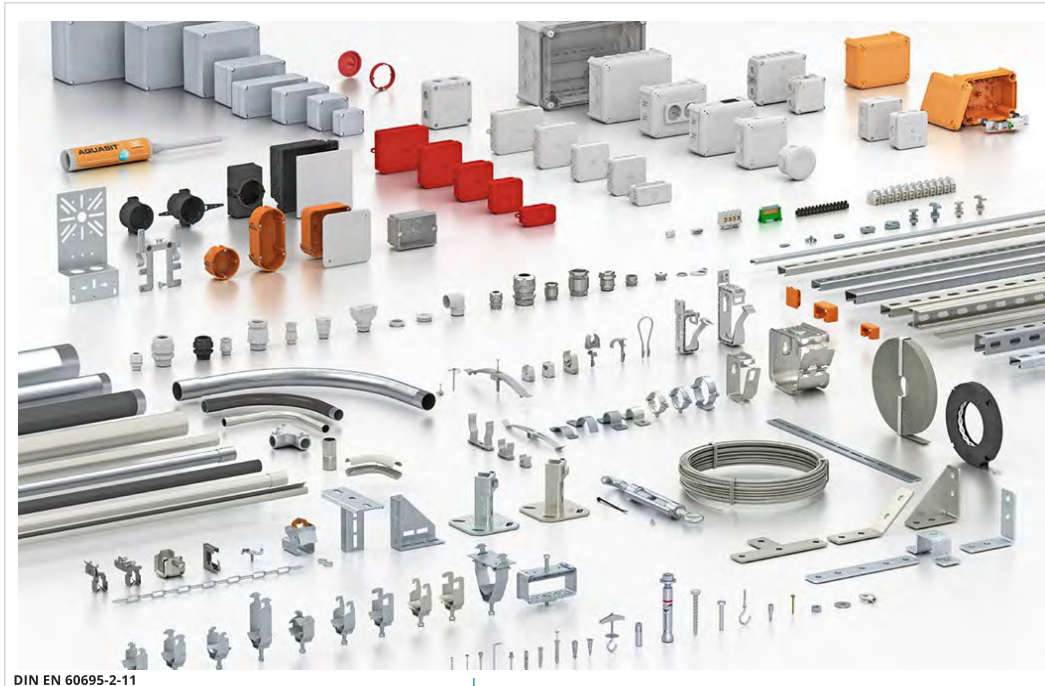

Fire Protection Systems

- Insulation
- Escape route installation false ceiling systems
- Fire protection ducts
- Cable bandages
- Systems for maintenance of electrical function
- Anchorings

DIN 4102-9

Connection and Fastening System

Junction box systems
Distribution box systems
Concealed and cavity wall systems
Cable fastening systems, plastic/metal
Cable and pipe fastening systems, plastic/metal
Cable routing and mounting system
Pipe systems
Beam clamp systems
Rail systems
Clamp clip systems
Screw-in and knock-in systems
Terminal systems

Wago

Rail-Mount Terminal Block Systems
Installation Terminal Blocks
Pluggable Connectors
Interface Electronic
Power Supply Modules
I/O Systems
PLCs – Controllers
Sensor/actuator Boxes
Marking

Industrial Plug and Socket

- Surface mounting socket
- Penal mounting socket
- Schuko plug socket & connector
- Plug (Splash proof)
- Plug (Water tight)
- GT connector
- Socket-outlet with MCB provision
- Socket outlet interlocked
- Domestic AC / Industrial outlet
- Varia box / Amaxx box
- Mobile distribution rubber boards
- Eco box enclosure & junction boxes

IEC-60309

Power Quality

- NSL -10 heavy duty capacitor
- Ultima- The ultimate capacitor
- Power 9 - Heavy duty capacitor
- Duca power XD capacitor
- Automatic power factor controller
- Harmonic block reactor
- Thyristor switching module
- Intelligent PF compensator
- Active / Passive harmonic filter
- Digital meters
- Power analyser
- Detuned power factor compensator

Power, Control, Safety and Energy Efficiency

Load break switches
Manual transfer switching
Changeover switches
Bypass changeover switches
Remote and auto transfer switches
Diris digiware
Diris digiware monitoring devices and modules
Countis M series
Multis M series
Electrical network analyser
Energy management software
Measurement and monitoring multi-circuit system

UPS and critical power solutions

Desktop/Tower UPS systems
Rack/Tower convertable UPS systems
Single unit and 1+1 configuration UPS systems
Single and parallel UPS systems
Modular and scalable UPS systems
Industrial rugged UPS systems
Transformer based UPS systems
Industrial moduler DC power UPS systems
Emergency CPSS
Diffrent back-up storage - UPS systems
Lead acid battery (LA)
Nickel cadmium battery (NiCd)
Lithiu-ion battery (LI-ion)
Super capacitors/ Ultra capacitors
Lithium-ion Capacitors (LIC)
Flywheel
Compressed air energy storage

LED Luminaries

High bay lights
Cleanroom fittings
Industrial batten
Well glass fitting
Bulk head fitting
Base light
Down light
Suspended linear fixture
Flood light
Street light
Surface light
Panel light

DB and Switchgear

Distribution boards and enclosure
MCCB, MCB, RCCB, RCBO
Manual change over switch
Automatic transfer switch
Time switches
Movement & presence detector
Switches
Surge protection device
Contactors
Latching relays
Isolate switches
Aluminium trunking

Robust, Reliable Energy Efficient

8/12/16/20/24 feet HVLS fan
Fan control VFD panel
Single core cables
Control / braided cables
Drag chain & servo cables
Data cables
Instrumentation cable
Auto Cable
Fire alarm Cable
Uninyvin Cable
Weilding Cable
Armoured & unarmoured Cable

Honeywell

Smart Wiring Devices - Orna, Horizon, Evo, Impact, Blenz
Mounting Boxes
Masterseal + Protection System
Cable Management Solutions
Pop up Box
Wall Trunking
Underfloor Trunking
Floor Boxes
Access Outlet

RESPONSIBILITY

Doing nothing today means living tomorrow like yesterday

For us, assuming responsibility as a company means acting in a future-oriented manner. Because today determines tomorrow, and if a company does nothing today, it will search and struggle to make progress tomorrow. This thought applies not only to the further development of our products, but above all to responsible action when it comes to energy, resources and the environment as well as to employees, customers, suppliers and partners.

As a market leader, we wish to remain down to earth and spend everyday earning the trust that you can rightfully expect from a rock solid partner like us.
